Alejandro Muñoz Navarro

Frontend Developer

I build applications that address challenges for various businesses by identifying the specific issues each company faces and proposing solutions through web applications. 'The Missmates project' was born with the aim of tackling the issue of numerous mismatched shoes that accumulate daily in the store where I work. Check my works here:

WORK EXPERIENCE

Athlete
Nike

06/2022 - Present   *Viladecans*
Achievements/Tasks

- Developing an application that minimizes the number of missmates shoes, thus reducing the financial losses associated with it. Additionally, it has helped to decrease the space these shoes occupied in a limited warehouse.

Frontend Web Developer
Startup Project

2021 - 2022   *Remote*
Web layout using React, understanding customer requirement.
Achievements/Tasks

- Building reusable components and layouts in React.

Others
Workplace/Company

Barcelona, Madrid, Valencia
Achievements/Tasks

- Telemarketing, Banco Sabadell.
- Store Clerk, Decathlon (Ciutat Vella, Sant Boi and Aldaia)
- Store Clerk, Mediamarkt (Digital Store, Quart de Poblet)

PERSONAL PROJECTS

The Missmates Project (10/2023 - Present)
- TMP works with Supabase that stores all the missmates shoes. It allows us to view the entire list in real-time or filter by the different shelves where the shoes have been placed. At the end of the day, we add all the missmates to the list, TMP is capable of searching for their pairs. Its strong point is that it allows us to search for pairs when the customers comes in with only one shoe.

EDUCATION

Superior Grade - DAW
iFP

02/2024 - Present   *Remote*
Courses

- DAW - Desarrollo de Aplicaciones Web

Bootcamp
ISDI Coders Academy

02/2022 - 12/2022
